

I so enjoyed the reading today. Words can't describe how I feel. . . . Thanks again. I just loved it!!!! M.E., Oneonta, NY 8/25/09

I had a reading with you last Thursday at Avalon Moon. One of the guidance given was to have my driver side tire checked out. I knew there was truth there, I had been hearing thumping on that particular side for a while, but like many I chose to ignore it. I took the car to the garage yesterday. Turns out the thumping was a broken brake sticking and hitting the tire. Some of the other brake pads were worn down too, but that side seems to have been the most dangerous. Thank you.

There were a lot of things said during the reading that rang truth in my heart. I was so intent on visualizing and listening to certain things during the reading that I see I needed to listen to the tape to fully appreciate the whole reading. There are things said that I've either always known or had a strong feeling about. I have good strong positive feelings you have helped me to hold on to.

Thank you for sharing your gift.

I hope to see you again, E. R.

"I had never spoken to Diana, or even seen her, and she told me my entire life. She was incredibly accurate." – M.M.- Greenwood Lake, NY 10-8-09

6-8-09 discovered Diana last fall. Her reading on my situation with grown son was 100% accurate. She was able to tell me when he would be moving out, and sure enough he did, 2 months later and exact week as she said! Knowing this took the pressure off of me. I recently sent 2 family members for a reading as well, and they were both very satisfied and were able to hear from their deceased mother! I had my first reading for myself this past weekend. Diana was able to describe the relationship I recently started and helped me with some decisions on such. She has shown me some good news and I await for the results. Afterwards Diana did a faith healing on me, and I was able to lay back and relax, her hands were very warm and soothing. Without knowing prior medical information, Diana's hands concentrated on the 3 areas and one particular organ that she felt was needing of her help. The colors of green and dark red ran behind my closed eyes while she sent warm, healing energy through me. Thank you Diana. I will be back soon for your help.
